

## BRISTOL 2005

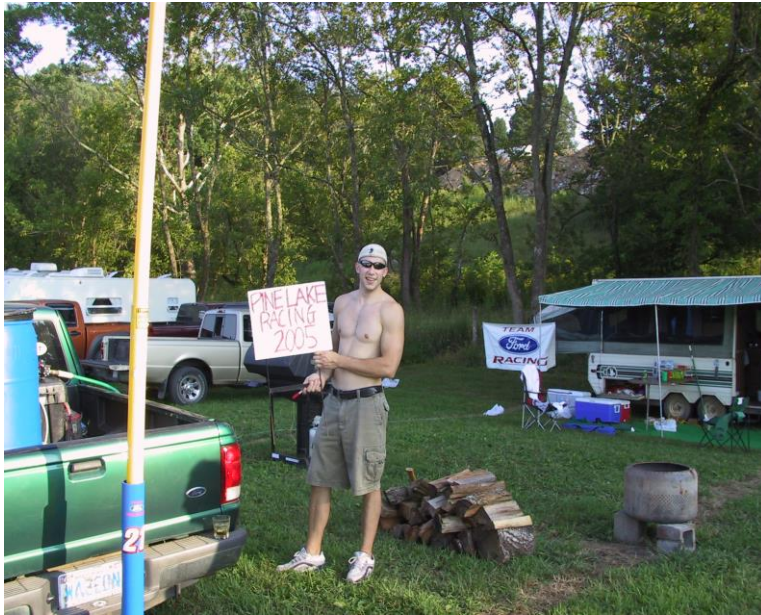

Narrow sites again in 05.

Last Year for the Jayco would be 07

First year for fiberglass flagpole, water barrel for warm showers.

This was our first name, then more and more joined us became THE REDNECK RACE CLUB.

We brought “shoes” that year

Our shower was a big hit, Thanks to the PEPSI man at FOOD CITY for the plastic base I still have in 2020.

12V pump from 50gal drum in back of truck,  
heat up all day and took warm showers at night.

It would fill up by Sat night.

L-R Stan, Mark, Ryan, Ryan and John

We would see these guys for many years later

This was campground transportation until they required them to be street legal. Then we stopped going. At night they would pull a flatbed trailer with folding chairs and coolers to tour the campground.
