

# Sandblast Rally 2017

## Cheraw, SC

Heading to our assignment, it was smokey

At 645am. Up at 5, mtg at 620.

Many controlled burns in the area.

In the AM my chair was not far from my truck

Motorcycles start first.  
This is view from my seat in the morning.

In the afternoon I sat on the other side of road from my truck due to wind change.

One of the ultimate winners.

Mitch Barbato(KX4MB) works on this car with  
some other Hams.

In the afternoon cars came from down there.

And went down that-away. In the morning it  
was reverse and so was the wind.  
Stayed at Cheraw State Park about 5 miles away  
in my Popup camper.

Link to video of car coming by.
